Qualitative

Is there any additional feedback you would like to provide about the instructor (e.g., teaching style, time management, accessibility)? -

- no
- I enjoyed his way of doing most everything in this class! Provided us with a fun learning environment.
- Mr. Elzinga is an extremely good teacher. He is very nice and tries his best to make class engaging and fun. He is very good at explaining concepts and topics that are difficult to understand. He is also good at managing the class and maximizing class efficiency.
- Mr. Elzinga was great! He is very prompt on answering and contacting us via canvas, which was so helpful. He held great extra study sessions, and made class fun! I really appreciated his attitude and genuine excitement about teaching our course.
- His accessibility was excellent and his class was organized.
- none
- very good teacher, always tried to make class interesting and fun.
- provide extra examples of problems outside of the book
- The in class test reviews were not as helpful for me. Instead of having different people do different problems, I think we should go over problems together, and then we should ask our questions then.
- Everything was organized time wise and allowed for us to complete our assignments for the class. David was great at helping us out, it just took him a long time.
- I think he has a great teaching style and it's super helpful how involved he is with the students.
- He has a great teaching style and is so quick to respond to emails and help with anything we need. He explains things step by step and does not go too fast. He is always so willing to help if we are confused.
- He was extremely organized
- I can't say enough about David. BY FAR THE BEST TA ON CAMPUS! I wish he would become an instructor because he has a serious talent. David contributed to my understanding of this course on all levels. I honestly stopped looking at the pre lecture videos because I learned so much from David in class. Great guy and even better instructor.

Is there any additional feedback you would like to provide about the course (e.g., workload, content, technology)? -

- NA
- Wish you the best of luck in the future.
- I wish we did more practice problems instead of playing games with practice problems
- I maybe would like if more homework problems from webassign were gone over in class, because many of those problems are hard.
- Web Assign was hard to stay on top of because I never used it but he was super helpful.
- Some times we had multiple worksheets and we were unable to complete them all. Besides that the homework was fine.
- N/A
- none
- The lecture checks are pointless
- none
- The way the class was flipped was detrimental to learning and it should not be taught like this. But, Mr. Elzinga did a great job with making sure we understood the concepts with in class assignments and concept checks.
- I really don't like the videos at all. I would much rather take a traditional class setup than this REACT.
